G. L. Becker, representing the Ogden sportsmen, has written a letter addressed to W. M. Bransford in this city, asking if there would be any objection on the part of the Salt Lake contingent to the changing of the date. Bransford is circulating the letter for signatures and from the start made yesterday it would appear that the Salt Lake crowd favor the change

It is argued in shooting circles that May is a much better date than September.
One reason for this is that many of the trap shooters are either away on their summer vacations, or have just returned from the seme in September and as they have had plenty of field hunting during this time, do not care for a trap shooting tournagent.

It is also argued that all the trap shooters are in better form in May than in September. Trap shooting starts in the Ring History.

The recent benefit given Terry McGoyern at New York brought together
the greatest number of ring celebrities that ever gathered under one roof.
